## BUMPSHIELD

**remax**<sup>TM</sup>  
PRODUCTS

Easy to install wall and fixtures protection systems that will enhance the appearance of your décor and will never require painting

### Features:

- ▶ Smart minimalist styling
- ▶ Lightly serrated surface that hides the marking and scratching of constant traffic impact.
- ▶ Tough plasticized vinyl construction is shatter resistant, temperature stable, and will not become brittle with age or UV exposure.
- ▶ Color is even through whole extrusion, and will never require painting.
- ▶ Color co-ordination option available to match corporate décor. (see inset)
- ▶ Modular system, easy to install, with concealed fixing plate, and clip-on fascia panel. Smart corner and end moulds for a quick yet professional finish.
- ▶ In the event of the fascia trim becoming damaged, it can be easily unclipped and replaced.
- ▶ Available in 2 widths: 65mm and 125mm

Only the highest quality materials are used in the manufacture of our wall protection systems. Refer to Remax for further information, or a specification sheet.

Remax also supply a range of bollards and corner protection systems. (see inset)

Remax reserves the right to alter technical specification without notice.
